PRESS RELEASE 4. FEMST Final Conference. A Day of STEM Innovation in Eindhoven.

On **October 10, 2024**, the Erasmus+ FEMST project celebrated its achievements by hosting its **Final Conference in Eindhoven**, bringing together participants from across Europe and beyond to discuss **innovation in STEM education**.

What happened in the event?

The event featured **key speakers** from various countries who shared their expertise and presented **best practices and successful STEM projects** from their respective fields. The conference was an opportunity for collaboration and learning, providing insights into the future of STEM education across Europe.

In addition to the presentations, participants engaged in an **interactive workshop**, which encouraged dynamic discussions and showcased the wide-ranging interest in the Erasmus+ FEMST project and the initiatives developed through it.

The **feedback and engagement** from attendees highlighted the significance of the project's contributions to STEM education, and the Erasmus+ FEMST consortium is eager to continue building on this momentum.

For further details on the Erasmus+ FEMST project and to stay updated, visit our **official website** and follow us on **social media**:
